

Installation and Maintenance

TigerShark Top Mount Outrigger Holders

CONGRATULATIONS!!

**YOU HAVE PURCHASED A PRECISION TOP MOUNT OUTRIGGER HOLDER
MADE IN THE USA!!**

1. TigerShark Electric: If you have purchased our electric model, Prepare your top with our enclosed 4 x 6 w/3" hole diagram and simply place into the 3" hole and bolt in with quality 304 stainless steel machine screws, and follow the diagram enclosed to hook up the electric.

2. TigerShark Manual: If you have purchased our TigerShark Manual Version, there is some assembly required as follows:

- a. This process will only take a few minutes following the directions below if your t-top is prepared with mounting plates with a minimum 3" diameter hole in it to accept the top mount. If not prepared please use our 4 x 6 plate with 3" hole diagram enclosed to prepare your top for the following directions.
- b. Insert the top mount into your 3" hole support and use good quality 304 stainless steel machine screws to bolt flange to support.
- c. Take the bottom handle assembly and insert the gear with the shaft up into the housing, being sure to position the female hole in the shaft end up and into the male shaft end.
- d. Using the 3 allen cup screws as provided screw the gear and handle housing to the upper housing.
- e. Screw the bottom plate in place.
- f. Place your 1 1/2" fixed or telescoping outriggers into your new tigershark outrigger holders.
- g. You are ready to use your new manual top mount outrigger holders. Simply turn handle until you have desired position on your outriggers.

Maintenance: Wash with Fresh Water After Each Use.

Warranty: Your New TigerShark Top Mount holders were inspected and tested before leaving the factory. We warranty this product to be free from defects in materials and workmanship under normal use and service for a period of One Year from date of purchase.
